

## Mounting headlamp mask "Bad Look

1. Hold the mask against the original headlamp and determine exactly where the mask rests so that you can then apply the adhesive dots.
2. use the supplied mounting glue and apply it as shown in fig. 1 (do not use too little glue)
3. then we recommend fixing the mask as shown in fig. 2 two!  
(the drying time of the adhesive is approx. 12 hours).
